Report of the Executive Director and Staff

KDE Update

Mr. Steve Schenck, sitting in for Commissioner Gene Wilhoit, Kentucky Department of Education (KDE), updated the Board on two issues. 1) The contract for the Commonwealth Accountability Testing System (CATS) made it through the Contract Review Committee, thus the new Core Content for Assessment Version 4.0 and Depth of Knowledge are closer to becoming official. Some cooperatives have begun to deliver training for the new Core Content Version 4.0 and Depth of Knowledge. 2) The March edition of *Kentucky Teacher* contains an article about new graduation requirements. Some of the new requirements in math, technology, and oral language will have an impact on students.

CPE Update

There was no Council on Post Secondary Education (CPE) update since Dr. Jim Applegate was absent.

Federal Highly Qualified Teacher Visit

Mr. Robert Brown reported on the federal highly qualified teacher visit in February. The federal team praised Kentucky on the outstanding job being done with data collection, which Mr. Brown mentioned, may be attributed to both the staff in his division and the school districts. The federal team did recommend, however, that the Education Professional Standards Board (EPSB) develop a plan to ensure an emergency-certified teacher does not continue to teach on an emergency certificate. This topic has been placed as an agenda item for the June 2006 retreat.

Legislative Update

Ms. Brenda Allen reported that House Bill 125, the EPSB's bill that ensures National Board Certified Teachers (NBCT) will not lose rank if their National Board Certificate expires, was delivered to the Governor on March 17, 2006 for his signature.

Additionally, Ms. Allen informed the Board that the new EPSB members, Dr. James Cibulka and Ms. Lorraine Williams, represented the EPSB well during their confirmation hearings. The appointments are awaiting the Governor's signature.

Senator David Williams proposed a bill that will require the EPSB to drug test all teachers whose teaching certificates are suspended or revoked for drug-related misconduct. If this bill passes, the EPSB and KDE must promulgate regulations that will detail how to execute the drug tests.

Deputy Executive Director Allen reported that the Governor's budget recommendations were sent to the House. The House provided an additional \$300,000.00 for the National Board Trust Fund. Additionally, the budget bill was received in the Senate. It is anticipated that it will go into Conference Committee next week.

Introduction of new staff members

New EPSB staff members were introduced. Ashley Abshire is the new executive assistant, the new Troops to Teachers Coordinator is Larry Fohl, and Gary Stephens serves as the new staff attorney.

Report of the Chair

In his report, Chair Stull appointed Diane Woods-Ayers (replaces Ms. Renee Scott) and reappointed Judy Conrad to the Accreditation Audit Committee for the three-year period of January 2006 – January 2009. Chair Stull also advised the Board that at the next meeting he will appoint a committee to develop a protocol to evaluate the Executive Director.

Anyone interested in serving on the committee should contact him. Mr. Stull concluded his report by inviting EPSB's new Board member, Ms. Lorraine Williams, to introduce herself to the Board.

Information Items

A. Review of Master's Degree for Rank Change and Efficacy for Improving Student Learning Committee Update

Dr. Marilyn Troupe presented a draft report from the Master's Degree Program Committee to the Board for comment and discussion.

There are currently three (3) board members serving on the Master's Degree Committee which has met since November 2005. They are Mr. Steve Lin, Dr. Jim Cibulka, and Mr. Kent Juett. Dr. Troupe presented three of the committee's recommendations: 1) Combine or collapse the New Teacher Standards and Experienced Teacher Standards to become Kentucky Teacher Standards. 2) Delete fifth and sixth year programs for rank change because they do not lead to a degree. 3) Certify the principal and other leadership positions at the post-master's level.

During the March 29 meeting, the committee will review standards for online courses, as well as programs and institutions so there may be additional recommendations. Dr. Troupe received a number of questions and concerns from Board members and indicated she would take them to the committee. The committee will present a final report at the May 15, 2006 Board meeting.

B. Kentucky Teacher Internship Program Discussion on the Use of the Teacher Work Sample

During the November 14, 2005 Board meeting, the Board requested that Teacher Work Sample (TWS) participants who are currently using (or piloting) the TWS and revised Performance Record appear before the Board. As a result, Ms. Karen Cobb, Ms. Kim Kearney, Ms. Beth Osborne, and Ms. Kristen Lucas, participants using the TWS, discussed their thoughts and experiences with the Pilot Program and the TWS before the Board. These participants, as well as the Kentucky Advisory Council for Internship (KACI), value the TWS and provided a number of positive comments regarding its benefit to the teacher. KACI sent a recommendation letter (provided in the Board folder) urging the EPSB to adopt the structure of the current pilot program at its May 15, 2006 meeting. Mr. Brown informed the Board that he intends to bring the TWS as an information item with notice of intent at the May 15, 2006 Board meeting to allow continued voluntary use for two years to be followed by mandatory statewide implementation.

C. 2006 Retreat Agenda, Draft

The retreat agenda was reviewed. A finalized copy will be provided at the May 15, 2006 Board meeting.

D. 16 KAR 5:040: Admission, Placement, and Supervision in Student Teaching, Amendment, Notice of Intent

This regulation was brought to the Board with suggested amendments to address cooperating teacher eligibility requirements and the continuing shortage of master teachers in difficult-to-place certification areas. Dr. Troupe reported that she and her staff reviewed surrounding state guidelines for cooperating teachers. As a result, they proposed the following suggestions for Board consideration:

1) allow three years of teaching experience on a professional certificate, instead of four years of teaching

- 2) allow fifteen (15) hours or more of college credit toward the master's degree if the educator has not yet attained Rank II
- 3) delete the requirement for 20 years of teaching experience; and
- 4) delete the requirement for work as a cooperating teacher during the past five (5) years

Additionally, Dr. Troupe reported staff recommendations to change the cooperating teacher payment dates to ensure payment is received before the school term concludes and to change the method of compensation to actual weeks served in place of a "per semester payment."

A lengthy discussion ensued regarding cooperating teacher criteria. Ms. Allen is going to work with Board members to develop five or six criteria to guide the selection of cooperating teachers and bring them to the Board for further consideration when the regulation is brought back as an action item.

E. 16 KAR 2:010: Kentucky Teaching Certificates, Amendment, Notice of Intent

In 2004, the EPSB amended 16 KAR 2:010 to assist districts in meeting Highly Qualified (HQ) requirements established by The No Child Left Behind Act of 2001 by developing the TC-HQ route to add to and/or extend a current Kentucky teaching certificate. Patterned after the High Objective Uniform State Standard of Evaluation (HOUSSE) index, the TC-HQ allows certificate modifications by using a combination of past teaching experience, professional development, awards and achievements, and relevant coursework.

This index is approved by the federal government to determine a teacher's HQ status. The use of the TC-HQ was approved by the EPSB until June 30, 2006. Since its implementation, Mr. Carr reported that 62 individuals have used this route for certification. Anecdotal comments from district superintendents and human resource directors have been very positive with regard to this option, which many believe should be permanent. The current wording of 16 KAR 2:010 requires the TC-HQ option to cease effective June 2006, but the EPSB staff recommended to the Board to extend the option beyond the expiration date of June 2006. An action item for Board approval will be presented at the May 15 Board meeting.

F. 16 KAR 2:140 Probationary Certificate for Teachers of Children, Birth to Primary, Amendment, Notice of Intent; 16 KAR 2:150: Probationary Certificate for Teachers of Technology Education, Amendment, Notice of Intent; 16 KAR 2:160: Probationary Certificate for Teachers of Exceptional Children, Amendment, Notice of Intent; 16 KAR 2:170: Probationary Certificate for Middle School Teachers, Amendment, Notice of Intent

Mr. Mike Carr discussed with the Board the reasoning behind the amendments to several probationary regulations by explaining that with the passage of the federal No Child Left Behind (NCLB) legislation, the Education Professional Standards Board approved determination of the types of Kentucky teaching certificates that constitute "full state certification." This determination is necessary for schools to determine the "highly qualified" status of core content teachers on the annual Highly Qualified (HQ) Report. Probationary certificates have not been identified as "full state certification" because current EPSB regulations do not specify a set period of time during which all probationary coursework must be completed. In the 2003 EPSB document titled "Identifying 'Highly Qualified' Teachers Pursuant to the No Child Left Behind Act of 2001," the EPSB addressed probationary certificates by stating that regulations would be revised to address the issue of completion time for coursework.

Staff recommend that the EPSB amend language in the four regulations governing the types of probationary certificates to align these with NCLB requirements concerning “full state certification” by establishing a three-year time limit to complete all coursework required. This time limit would allow the granting of a professional certificate in the area sought. 16 KAR 2:150 has also been amended to reflect changes in the governing entities in the area of career and technical education. Mr. Steve Schenk requested a change in wording relative to 16 KAR 2:160 regarding the six hours of training now provided by the educational cooperatives, but which is the responsibility of the Kentucky Department of Education. An action item for final approval will be presented at the May 15, 2006 Board meeting.

G. 16 KAR 2:020. Occupation-Based Career and Technical Education Certification, Amendment, Notice of Intent

Mr. Carr explained that in reviewing all career and technical education certificates, university instructors asked EPSB staff to address the current regulation’s (16 KAR 2:020) allowance of occupational proficiency evaluations and assessments in lieu of actual coursework for the renewal of occupation-based certificates. This allowance may delay new teachers’ entry into the required 64-hour planned program. Unfortunately, this delay does not support the need for these teachers to progress in a timely manner toward completion of university coursework.

Mr. Carr indicated that unless the Board had objection to the revision to the regulation, an action item for final approval will be presented at the May 15, 2006 Board meeting.

H. 16 KAR 3:080. Vocational Education Administrators, Amendment, Notice of Intent

Mr. Carr reported that the current regulation (16 KAR 3:080) is not clear about who may be hired for the position of career and technical school principal. Since there have been no career/technical principals in certain parts of the state, institutions have hired administrators who hold a regular principal certificate. The Department of Workforce Development and KDE believe there must be more flexibility due to the inevitable regional shortages. EPSB staff has worked with these entities to construct a proposed amendment that would allow the employment of principal candidates who possess a regular principal certificate along with an appropriate career and technical teaching background.

This proposed amendment would also lengthen the teaching experience requirement for such principals to three years. Lengthening the teaching experience requirement would align 16 KAR 3:080 with other regulations governing administrative certificates.

Mr. Carr explained that if the board concurs with staff on the amendment, an action item for final approval will be presented at the May 15, 2006 Board meeting.

I. 16 KAR 6:020, Written Examination Prerequisites for Occupation-Based Career and Technical Education Teachers, Amendment, Notice of Intent

Mr. Carr provided the history of the EPSB’s practice of allowing a six-month waiver for newly hired occupation-based career and technical education teachers to successfully complete the Preprofessional Skills Test (PPST). The PPST gives universities assurance that new teachers have sufficient academic skills to succeed in the required 64-hour planned program and in the coursework, which must be complete to retain occupation-based certification.

The Board permitted a six-month waiver by its action at the August 18, 2003 meeting in an attempt to aid university personnel in requiring PPST to be used as a predictive measure regarding the academic abilities of new occupation-based teachers. While the Board supported the need for the PPST, the waiver was allowed because the timing of the assessment dates often prevented schools from hiring new teachers in August since the time

to take and receive scores for the test could not be secured until later in the fall. The Board asked staff to monitor the waiver's implementation and to make a recommendation at a later date whether to amend 16 KAR 6:020.

Mr. Carr reported that staff monitored the implementation and now recommends that the PPST be retained; however, the staff also further recommended that the Compass test, designed by American College Test (ACT), be used as an alternative in cases where timing of new hires is a critical issue. The Compass test is used as a predictive assessment and has the advantage of being available at all locations of the Kentucky Community and Technical College System (KCTCS). In addition, the Compass test can be scored immediately, eliminating the need for the six-month waiver process.

Mr. Carr concluded by reporting that an addition was made to the regulation to reflect the need for an assessment standard for the certification area of Culinary Arts.

Ms. Allen addressed some changes to the draft regulation (16 KAR 6:020) that need to be made. On page 91, line 7 "industrial education" should read "occupation-based certification." Also, on page 94, line 21 should read NOCTI Computer Technology Test (#226) – 63.

An action item for final approval will be presented at the May 15, 2006 Board Meeting.

J. 16 KAR 9:040: Part-Time Adjunct Instructor Certificate, Amendment, Notice of Intent

In reviewing all career and technical education certificates, Mr. Carr proposed adding language to 16 KAR 9:040 that clearly reflects the same prerequisite requirements for the part-time adjunct occupation-based instructor certificate as are required for the full-time instructor certificate. Kentucky Department of Education (KDE) representatives who worked with EPSB staff recommended this change.

Final approval will be presented at the May 15, 2006 Board meeting.
